## WELCOME TO THE FILIPINX AMERICAN PAGES

Otherwise known as *The FilAm Pages*, this resource guide provides information about academic, cultural and community resources helpful to Filipino/a/x-identified students making UC Davis their home and aims to showcase the incredible diversity of the community.

This guide also focuses on the UC Davis Filipinx and Filipinx American (FilAm) community and the opportunities it offers for students to get involved, on and off campus, and make their college experience the best it can be. In the homeland of the Philippines, the sun shines and the caribou help us progress, so take this chance to find the light in your path and seek that fuel to move forward.

The “P” in “Pilipino” is a reclaimed version of Filipino, since several languages in pre-colonial Philippines did not contain the “F” sound. Many organizations utilize the “x” to remain inclusive of all genders within the spectrum and decolonize normative gender conceptions.

## MABUHAY

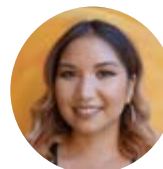

**ROBYN MAGALIT RODRIGUEZ, Ph.D.**

Associate Professor, Asian American Studies

**Congratulations on attending UC Davis**, a tier-one research university! Being at a place like UC Davis affords you a wealth of opportunities for personal and academic growth. One very unique privilege that you enjoy at UC Davis is the chance to take courses on the history and contributions of Filipinx Americans. UC Davis is just one of a small number of universities in the nation with an Asian American Studies (ASA) department. I strongly urge you to take advantage of ASA. Take ASA courses, seek out mentorship from our faculty and staff, and gain valuable experience working in or researching the Filipinx and broader Asian American community while you are here.

Another piece of advice: don't just take classes. If all you do is take classes, you're wasting two-thirds of your tuition. Take advantage of UC Davis' vast array of services. Join a club. Go to film festivals. Attend lectures by visiting scholars. These services are one-third of your tuition. Another one-third of your tuition goes to support research. University of California campuses are research institutions, and all your faculty members are actively engaged in research. You can and should link with them to gain hands-on experience in the research process.

In the big scheme of things, you will spend only a very small portion of your life in college. Make the most of it! We're here to make the time you spend at UC Davis enriching and rewarding.

**KRISTIAN MARIE "KRISSEY" LIRIO OCAMPO, M.A.**

Community Advisor for Retention  
Student Recruitment and Retention Center

**Maligayang pagdating!** Welcome! Congratulations on being part of the UC Davis community! We are so excited to get to know you and embrace you as *kapamilya*, a member of our family.

I hope that you can use *The FilAm Pages* to discover all that our UC Davis community has to offer you. UC Davis is home to so many opportunities for you to explore who you are, what you want to do and how you want to make your mark on this world. I myself, as a Filipina American, first-generation graduate of UC Davis can truly understand the ways that your education is going to be a life-changing experience for you, your families and your communities. And I can guarantee you that at UC Davis, you will be surrounded by empowered leaders—professors, staff, advisors and fellow students—who are all here to guide you in your academic and personal goals.

You have so much to offer this university, and I am so excited to see you and our campus community grow and change as a result of your education, involvement and service.

I wish you the best of luck in all your future endeavors! Remember, *kaya natin ito!* We got this!

### WHAT DO YOU LOVE MOST ABOUT UC DAVIS?

**I love how many communities are located on one college campus. The work that students have put into creating community is a source of support beyond the classroom. Sharing knowledge and experiences with so many different people is very humbling. I have grown in so many different aspects that I would not have expected had I not been here at UC Davis.**

*\* Pronouns are linguistic tools that we use to refer to people (i.e., they/them/theirs, she/her/hers, he/him/his). We believe that it is important to give people the opportunity to state the pronoun that is correct to use when referring to them.*

### **WHERE DID YOU FIND COMMUNITY AT UC DAVIS?**

**One of my biggest worries was how I was going to make friends. The extra effort to join clubs led me to the FilAm organizations at UC Davis, like Kappa Psi Epsilon and Mga Kapatid. I found some of my best friends through these organizations. Not only did I share an ethnic identity with the students and learn more about my own culture, but I was able to find academic support and others who shared my major.**

### WHAT ADVICE WOULD YOU GIVE INCOMING STUDENTS?

**Find those people who support you, celebrate you and help you grow holistically as a person. Personally, as someone who identifies as both Filipino and queer, it wasn't easy to be a part of a community where queer people aren't highly represented or actively supported. ### WHAT HAS BEEN YOUR MOST MEMORABLE UC DAVIS EXPERIENCE?

**My most memorable experience at UC Davis was the Filipino Association for Health Careers Veterans Luncheon. During this annual event, we met with Filipino WWII veterans from the Sacramento area. They shared their stories and experiences with all of us while we celebrated the holidays with food and music. It was very humbling and enriching to learn about how people with similar backgrounds got to where they are now. Hearing their advice was also very reassuring and encouraging. I was inspired by this experience and will never forget it.**
