Meet the colleges sessions

College of Agricultural and Environmental Sciences - Come learn about being a student in the College of Agricultural and Environmental Sciences, CAES, from staff members of the Undergraduate Academic Programs team and CAES students! We will provide information about academic support and services and unique programs within the college in an interactive way where participants will be eligible to win prizes!

College of Biological Sciences - Envision yourself as a future scientist, biologists or health professional by learning about the exceptional undergraduate programs and innovative opportunities created by the College of Biological Sciences, CBS, for students like YOU! We are here to support you to become everything you are meant to be — especially, if you are the first in your family to attend college or from a systematically excluded, marginalized group. We hope that you leave this presentation feeling inspired and ready to tackle the rest of your day. Our faculty, staff and students can't wait to connect with you as a future CBS student in our various events!

College of Engineering - Safety note: Part of your visit may include touring research labs. All visitors who intend on entering lab spaces must wear full-length pants (or equivalent) and closed-toe and closed-heel shoes. If you do not meet these requirements, you will not be allowed to access the lab. We thank you for honoring the UC Davis

We invite you to pull up a seat for our listen and learn presentation while we answer some of your and your family's questions about our student resources and team member engagement.
