90 YEARS

UC DAVIS ARBORETUM AND PUBLIC GARDEN

Founded 90 years ago to support teaching and research, the **UC Davis Arboretum and Public Garden** continues to help people and environments thrive. The Peter J. Shields Oak Grove (pictured here) exemplifies the Arboretum and Public Garden's legacy of world-class plant collections and places where people connect with nature. Today, our influence extends well beyond campus. **The Arboretum All-Stars** program inspires gardeners to create colorful, drought-tolerant landscapes while providing habitat for pollinators and other wildlife. In this calendar, look for each month's featured All-Star blooms that can bring the beauty of the Arboretum to your own garden.
